Windows & Office Activation Guide

Open PowerShell

- Click the **Start Menu**, type `PowerShell`, then open it.

Copy and paste the code below, then press Enter.

For Windows 8, 10, 11: 📌

```
irm https://get.activated.win | iex
```

**If the above is blocked (by ISP/DNS), try this
(requires updated Windows 10 or 11):**

```
iex (curl.exe -s --doh-url https://1.1.1.1/dns-
   query https://get.activated.win | Out-String)
```

For Windows 7 and later:

```
iex ((New-Object Net.WebClient).DownloadString('
   https://get.activated.win'))
```

Script not launching? ❓

Use **Method 2**.

Done!

The activation menu will appear. Choose the **green-highlighted** options to activate Windows or Office.
